

## Library Director's report

Prepared by Director Susan Getty

March 5, 2019

Monthly statistics: statistical summaries for the month of February 2019 will be available at our meeting.

### Financial/Donations:

- We have received a \$195 donation from the Salem-Washington Academy Teachers' Association, along with a thank you note (which will be available at our meeting).

### News/Issues:

- The 2018 NYS Annual Report was completed and submitted to SALS by the deadline of February 15th. Board members should have received a copy of the Annual Report by email. I have recently received notice that our report has been reviewed and accepted by SALS, and has been sent on to the state for review.
- I'd like to make certain to recognize the library staff, especially Karen, for picking up the slack when I was really sick. They kept the library running efficiently during the school break week, and I greatly appreciate it.

### Programs:

- Our February school break programs had varying levels of attendance. A few programs were well attended, others less so, but this is the norm. People seemed pleased to see what we offered, even if they didn't attend.
- A large group from the LEAP Head Start program joined our Story Time on February 27th. The instructors were actually expecting a few more of their families to attend, but overall were very pleased with the partnership, and may come again.
- The Washington County Office for the Aging will be offering a luncheon for seniors on March 20th at noon.
